

Avoyelles Parish School Board

Student Progress Center Directions

Parents of children attending any Avoyelles Parish School may track their children's progress via the Internet. Using the **Student Progress Center**, a parent can check a child's attendance, grades, assignments, discipline, transcript, and state test scores.

For security purposes, in order to create an account, a parent must supply information that matches the information contained in the school's computer system. A student information form containing this information will be provided. If there is no match, an account cannot be made. A parent would then contact the office to verify information. Usually it is a simple matter of making a name match (Ex... Parent's first name is "Charles", but the computer system has "Charlie").

Directions on how to navigate to the site, create an account, and use the site are provided on the following pages:

- Relationship chosen does not match the school information system. Call the school to confirm.

- The **“PSN”** field does not match the number in the computer system. Check against the PSN number on the student information form, or with the Secretary to verify.
